BOOK AN APPOINTMENT

Inspect is defined as: inspect and clean, repair, adjust, fill up, or replace if necessary.

*1 Use of FL-22 is recommended when replacing engine coolant. Using engine coolant other than FL-22 may cause serious damage to the engine and cooling system.

*2 According to state/provincial and federal regulations, failure to perform maintenance on these items will not void your emissions warranties. However, Mazda recommends that all maintenance services be performed at the recommended kilometer period to ensure long-term reliability.

*3 The Tire Pressure Monitoring System (TPMS) initialization must be performed so that the system operates normally (if equipped).
